ASBURY PARK, N. J., July 12.-11 the bikers keep on coming to town in the same crowds which they arrived last night and this morning there will be 12,000 wheels in town before evening.

They come by every train, and lose little time in getting out to the bicycle track, where the fifteenth annual racing meet of the L. A. W. is going on in a blaze of glory.

When the crowd began to gather at 8 o'clock to see the trial heats the sun, which has been particularly merciful during the first days of the meet, came out blazing hot and gave promise of doing a little scorching on its own account.

Two thousand enthusiasts occupied seats in the grand stand when the races ()ne of Them Says He Paid \$5 for a were started this morning. The results of the morning trial heat
